H. H. SELDMORRIDGE SAYS THERE IS NO BITCH

President's Assurance That Postoffice Choice Will Be Named

"Have every assurance that my recommendation of Mr. Ward will be recognized. Am not aware of any objection on part of president, and have not thought it necessary to receive him in matter in view of assurances received."

Congressman H. H. Seldmorrige last night sent the foregoing telegram to The Gazette in answer to a wire inquiring as to the authenticity of rumors current in Colorado Springs that President Wilson had refused to send the name of O. W. Ward to the Senate for approval as postmaster of the Colorado Springs office.

From the message it is to be assumed that the recommendation of Mr. Ward is receiving the consideration desired by Mr. Seldmorrige, and that it will be finally passed upon within a short time.

Almost daily, since Congressman Seldmorrige's announcement to fill the vacancy at the local postoffice, rumors have been circulated of a hitch in the program. But they also have died as easily as they have been started, and few have taken them into serious consideration. Since the expiration of the term of the present postmaster, A. J. Strachan, however, the question of when the appointment would be made has been a puzzle in local Democratic circles more than has been generally evident.

The Senate has been approving postmaster appointments weekly for some time, even the vacancy which will occur in the Manitou office next month, having been filled. Nothing definite had been learned either by Mr. Ward or other prominent Democrats, and when the rumor was started that President Wilson had refused to consider the Seldmorrige recommendation it was given more than passing attention.

The wire to The Gazette last night is the first authentic information received on the subject. For weeks, and it probably will settle the fears of some politicians, for several days to come, at least.

PARS. AND MRS. WILSON ENTERTAIN THE JUDICIARY

WASHINGTON, Jan. 27.—The president and Mrs. Wilson gave the second of the state receptions at the White house tonight in honor of the Judiciary.

POLICE ARE CALLED TO QUELL CHICAGO RIOTS

Garment Workers Tiring the Streets; I. W. W. Leaders Address Crowds

CHICAGO, Jan. 27.—Riot calls were turned in at West Side police stations tonight to quiet gatherings of hundreds of unemployed garment workers who were being harassed by men who said they represented the Industrial Workers of the World. Five of the leading speakers were arrested.

The open winter has thrown thousands of garment workers out of employment and there has been much suffering reported in the West Side ghetto districts.

The police were called when Morris Bernstein and Harry Wishnewsky held the attention of a thousand or more garment workers who had just left meeting hall. The speakers recalled the Haymarket riots and a dozen fights were in progress when the first load of police arrived.

The crowd followed when Bernstein and Wishnewsky were taken to police station and three others arrested according to the rules of the convention call if no city receives a majority.

(Continued on Page Two.)

ERRY WAR ON OVER MINING CONVENTION

veral Cities in Race to Entertain State Mining Men Next Month

erry war is on among several cities of Colorado for the honor of entertaining the state convention of mining men to be held Feb. 19. The vote of the counties for first and second choice is divided so that it is not probable any will receive a majority.

According to the rules of the convention call, if no city receives a majority, the two cities will eliminate all but the two having the greatest number of first and second class votes and the election will fall to a second vote of delegates. The time for return of votes will be limited, and may not exceed after the date set will not be held. The following cities were in race for the convention on the first day: Colorado Springs, Denver, Salida, Leadville, Canon City, Idaho Springs.

Now assured that 35 mineral men will send delegates and some have elected 10 representatives, one-half vote each. There are 150 in attendance.

Office of the bureau of mines at state capital is in receipt of many inflammatory letters from mining men who declare the organization is necessary and will be a benefit to the industry. The following counties have sent a list of their delegates to their votes on the state convention at state commissioners of mines for Saginaw, Ouray, Denver, Pueblo, Hinsdale, Gilpin, Clear Creek, Mineral, Fremont, Montrose, San Juan, Rio Grande, Pitkin, Miguel, Eagle and Gunnison.

Delegates also have been held, or held in a few days, in El Paso, Colorado, Montrose, Chaffee, Lake City. Several other mineral men decide to send delegates to the state convention.

Chief of Police Gleason ordered policemen stationed at all of the chief stores to prevent raids. An extra detail of police was stationed at the El Paso Employment Agency, which has been providing relief for many of the sufferers.

COLORADO SPRINGS, COLO., WEDNESDAY, JANUARY 28, 1914

PRICE FIVE CENTS

JUDGE SOUNDS NOTE OF WARNING AGAINST RULE BY JUDICIARY

Control of Government Is in Hands of the Few, Says Noted Jurist

NEW YORK, Jan. 27.—Declaring that all the power of government both federal and state, lies at the feet of "judiciary oligarchy," composed of the lawyers of the United States, Chief Justice Walter Clark of the North Carolina supreme court, in an address delivered tonight, warned his fellow jurists throughout the country to take heed lest their power prove their own undoing.

Justice Clark's theme was "Government by Judges." In part he said, "In this country, as in all countries, the control of the government is in the hands of a few. We have learned that the form of government amounts to little. The real question is 'Where does the control of government reside?'" The overwhelming preponderance of the judiciary was unexpectedly created in 1803 by a decision of the supreme court of the United States—without a line in the constitution to authorize it when that body assumed the right to veto any act of congress they chose to hold unconstitutional.

Where "Interests" Began. This doctrine was promptly seized upon as a boon, by the special interests and by all who believed at heart in the government of the many for the benefit of the few. It practically has made the courts the dominant power in every state of the union. Whenever any progressive statute has not been in accord with the economic views entertained by the courts, they have generally exercised their power to declare such statute unconstitutional because it was not "due process of law."

In warning his brother judges against overstepping their authority, the speaker asserted that "Mr. Justice Harlan has well said, 'When the American people come to the conclusion that the judiciary of this land is usurping to itself the functions of the legislative department of the government, we will find trouble. Ninety millions of people, all sorts of people are not going to submit to the usurpation by the judiciary of the functions of other departments of the government.'"

"When the American people come to the conclusion that the judiciary of this land is usurping to itself the functions of the legislative department of the government, we will find trouble. Ninety millions of people, all sorts of people are not going to submit to the usurpation by the judiciary of the functions of other departments of the government. It is the power of the public policy of the United States."

10 ARE SUFOCATED IN RAILROAD TUNNEL

DANTE, Va., Jan. 27.—Ten laborers, two whites and eight negroes, met death by suffocation when fire broke out today in the tunnel which the Carolina, Clinchfield and Ohio railroad is constructing on its line between here and Elkhorn City, Ky. Their bodies were recovered.

DIAZ SUPPORTERS ARE ARRESTED FOR ALLEGED CONSPIRACY

Mexican Government Fears Plot Is Underway for Huerta's Overthrow

MEXICO CITY, Jan. 27.—Fidencio Hernandez and Guillermo Mexueiro, natives of the state of Oaxaca, have been arrested on the charge of being implicated in the plot to overthrow the federal government. Mexueiro and Hernandez were identified with the political fortunes of General Felix Diaz. They are the most prominent of those so far arrested in connection with the alleged plot.

None of the others in the hands of the police is of national fame, and General Fernandez Gonzalez, who according to some of the published reports, has been exonerated, has, as a matter of fact, been in Europe for some time.

The arrest of Hernandez and Mexueiro tends to give strength to the rumor that General Diaz has a new revolution under way. Both were arrested in Vera Cruz, where they were with General Diaz, when they fled the country in November.

Mexueiro was released for lack of evidence. He is credited with having extraordinary influence in the state of Oaxaca, and Hernandez is the man whom the Madero government used to advantage in suppressing the revolt in that state.

The police continue their investigation of the conspiracy, but at the national palace neither President Huerta nor any of his official family appears to be worried, all seeming to regard the incidents as of little consequence.

The reports of summary executions are officially denied. President Huerta today carried out his program as if no danger was impending. He took lunch with the officers of the Japanese cruiser Idzumo and later appeared at a cafe for a cup of tea accompanied only by his side.

COL. GOETHALS TO BE GOVERNOR OF CANAL ZONE

ONE-MAN GOVERNMENT IS CARRIED OUT

Isthmian Commission Will Expire on April 1, by Official Order

WASHINGTON, Jan. 27.—Organization of a permanent government for the Panama canal zone to supersede the Isthmian canal commission on April 1, was authorized by President Wilson today with the announcement that the nomination of Col. George W. Goethals to be first governor of the zone would be sent to the Senate in a few days.

Colonel Goethals' plan of a "one-man" government is carried out in the executive order which was made public by Secretary Garrison after today's cabinet meeting. The authority of the governor is to be supreme, under the secretary of war.

Official notification of his selection was cabled to Colonel Goethals at Panama. Secretary Garrison said he was confident there would be no question about acceptance. The change in title will mean a loss of \$5,000 a year to the head of the zone, as the governor's salary will be \$10,000 and he now receives \$15,000 as chairman of the commission.

Change Commission.

Secretary Garrison announced that it was proposed to re-lease the members of the commission with the exception of Colonel Goethals, into a new commission to arrange for and conduct the ceremonies incident to the opening of the canal. Congress will be asked to provide the necessary legislation.

As today's executive order not only terminates the existence of the canal commission on April 1, but also the present organization of the working force in the zone, many of the army officers connected therewith will lose the increased pay which they have been receiving under the commission.

The order authorizes the designation of a number of such officers of the army as well as a few naval officers for duty in the various departments of the permanent canal government, but the act of congress provides that they shall serve at their regular arms and navy salaries. It has been assumed that some of the officers now on the isthmus would be appointed to new positions created by the order.

President Explains Act.

President Wilson sent out his reasons for adopting the plan of government provided for by his order in the following memorandum:

"In construing and carrying out the foregoing order, I directed that it be done with the following considerations in view:

"I have deemed it advisable for reasons of efficiency, economy and good

(Continued on Page Two.)

WILSON OPPOSES PANAMA TOLLS? VOTE ON UNITING

QUESTION AGAIN RAISED IN THE CAPITAL.

Three Courses Are Open to Congress, Say Leaders; Many Change Views

WASHINGON, Jan. 27.—How disposed of the Panama canal tolls question was the subject up to now in discussion about the capital, when the attitude of President Wilson outlined to the western foreign relations committee last night became public.

The president's position was accepted by the provision of the Panama Canal act giving toll exemption to American coastwise vessels in payment of the Hay-Pauncefote treaty which proclaims that the canal shall be free and open to the vessels of all nations, whether and war, of all nations, in terms of entire neutrality and that charges of traffic should be just and equitable.

Before the bill was introduced in Congress, it was said tonight that administration leaders, a public statement from the president on the question will be issued. President Wilson, after the Senate's late night conference with the Senate, said he would claim his views as a future time.

Three Courses Open. Three courses are open to Congress in the subject.

Great Britain, which has persistently opposed the toll exemption for American ships, has offered to arbitrate the question as to its being a violation of the Hay-Pauncefote treaty. The majority in congress is believed to be opposed to this, maintaining that United States should settle the issue for itself.

Another course is to carry into effect the resolution submitted by Representative Adamson chairman of the Interstate and Foreign commerce committee, which would suspend for two

(Continued on Page Two.)

BILL TOO VOLUMINOUS.

It was set forth that the Dillingham bill was too voluminous to be carried into effect by the convention. The substitute required the international officers to work in conjunction with the legislative committee of the Senate, which would stifle the role of senators.

Well Reduce Executive's Power.

A movement to eliminate the international executive board and subcommittee.

(Continued on Page Two.)

REAL OIL BOOM LANDED AT PORT AU PRINCE, HAITI

President Oreste Flees When Rebels Begin Attack on the Capital

PORT AU PRINCE, Haiti, Jan. 27.—The president of Haiti Michael Fertig fled from the capital today and took refuge aboard the German cruiser Vineta. He was accompanied by his wife.

Fighting began in the city at 1 o'clock this afternoon. An hour later the president left the palace under escort and was conveyed in a launch to the warship lying in the harbor. Almost immediately detachments of bluejackets were landed from the United States armored cruiser Montana and the Vineta.

Firing continued throughout the afternoon, and it was evident that the revolutionary movement which began in the north and spread to some of the southern towns had gained sufficient strength in the capital to threaten not only the power, but the life, of President Oreste.

Firing continued throughout the afternoon, and it was evident that the revolutionary movement which began in the north and spread to some of the southern towns had gained sufficient strength in the capital to threaten not only the power, but the life, of President Oreste.

The new congress, which met in extraordinary session yesterday, failed to take adequate measures to check the revolution. It had been conceded for a long time, however, that the position of the executive was weak. Opposed to him were Senator Davitt, Theodore, in command of the rebel troops at Cape Haitien, and General Belard, both of whom have a strong following.

It was the intention of President Oreste to abdicate several days ago, but later he declined to do so, hoping, with the aid of congress, to prevent the overthrow of his administration.

U. S. SHIP EN ROUTE.

WASHINGTON, Jan. 27.—Wireless news that President Oreste of Haiti had fled from his revolution-torn capital, "leaving no government," caused Rear Admiral Zagier, at Guantanamo, Cuba, tonight to start the battleship South Carolina on a 500-mile run at top speed for Port au Prince.

Capt. Robert L. Russell, commanding the South Carolina, has orders to join the armored cruiser Montana, which already has landed bluejackets at the Haitian capital, and to take such steps as may be necessary to guard the lives and property of Americans and other foreigners. The battleship should reach the scene late tomorrow.

The first official news of today's developments at Port au Prince came to Washington tonight in a report from Adm. Badger, commanding the Atlantic fleet at Guantanamo who had been in wireless communication with the cruiser Montana. The dispatch said:

"The president of Haiti has abdicated, leaving no government. The Montana has landed 150 men, her deck force, in order to safeguard the lives and property of Americans and other foreigners. A German cruiser at Port au Prince was also landing a force at the same time. The South Carolina is leaving for Port au Prince. Captain Russell will act in his discretion for the protection of lives and property, assisting the force already landed if it becomes necessary."

The president Explains Act.

President Wilson sent out his reasons for adopting the plan of government provided for by his order in the following memorandum:

"In construing and carrying out the foregoing order, I directed that it be done with the following considerations in view:

"I have deemed it advisable for reasons of efficiency, economy and good

WILSON OPPOSES PANAMA TOLLS? VOTE ON UNITING

QUESTION IS POSTPONED FOR TWO YEARS

Immigration Subject Comes Up for Consideration; No Action Taken

INDIANAPOLIS, Jan. 27.—The proposal for the consolidation of the United Mine Workers of America and the Western Federation of Miners was placed on a working basis by the mine workers convention today.

The International executive board was empowered to appoint a committee to meet with a committee from the western federation to discuss the amalgamation and, if a plan should be agreed upon, to submit to the miners for a referendum vote. The report of the committee must be submitted to the next biennial convention.

The two other important organizations were adopted by the convention. One was a substitute offered by the resolutions committee refusing to endorse the immigration bill introduced in the United States senate by Senator Dillingham.

BILL TOO VOLUMINOUS.

It was set forth that the Dillingham bill was too voluminous to be carried into effect by the convention. The substitute required the international officers to work in conjunction with the legislative committee of the Senate, which would stifle the role of senators.

Well Reduce Executive's Power.

A movement to eliminate the international executive board and subcommittee.

**LABOR LEADERS
DEPORTED FROM
SOUTH AFRICA**

CAPE TOWN, Union of South Africa, Jan. 27.—The government has ordered to deport 39 of the principal labor leaders, including President Watt and General Secretary Bain of the Amalgamated Miners.

Under a strong escort, the men were sent today from Transvaal to Natal and late tonight were put aboard a boat, which will sail before dawn, arriving at no port until it reaches Durban. This action was taken by virtue of martial law which is still in force in Natal, from which province the deportation can legally take place. Measures will be taken to prevent the men's return to South Africa.

**MUSICIANS UNION HAS
BUSY TIME AT BANQUET**

A large number of the musically inclined of the city gathered last night at the band club for the annual banquet of Colorado Springs local union No. 154, American Federation of Musicians, beginning at 10:30 o'clock. An elaborate banquet was served, followed by impromptu speeches by members of the organization.

Between 1910 and 1912 the number of institutions teaching agriculture practically doubled, and between 1910 and 1912 this number was trebled.

**USE POSIUM
FOR RAW AND
ITCHING SKIN**

Posium will show you quickly, even overnight, how greatly it will benefit your skin trouble. Itching stops as fast as it is applied on the skin. The healing surface is comforted and pacified. Healing is rapid. Improvement begins at day by day.

Posium is controlled by Posium and all its ugly manifestations driven away. Pimples, Acne, Barber's itch, Ringworm. It has all and surface sores yield to Posium as to nothing.

Its work of healing is successful in stubborn and difficult cases.

Write to Emergency Laboratories, 16 West 36th Street, New York.

Posium keeps the skin in healthy condition. Improves Beauty.

**WHITMAN NOW IS
AFTER "PIE BOOK"**

**Record of Political Patrolage
in No. York Highway
Department**

ALBANY, N. Y., Jan. 27.—A "pie book" in which Highway Commissioner John N. Carlisle is said to have kept a record of positions he parceled out to political leaders, is sought by James W. Osborne for use in his graft inquiry.

The first intimation of the existence of the book came today at the inquiry when Theron Akin of Fort Johnson, Montgomery county, a former congressman, spoke of it. Akin said that last summer he went to Mr. Carlisle to appeal for the transfer of John F. Wright, an assistant highway engineer, and in the course of the conversation the commissioner produced the book and pointed out to Akin just how much patronage he had obtained. Incidentally, Wright was not transferred.

State Lost Millions.

He also laid the foundation for an investigation of the charges made by Governor Glynn that the state has lost approximately \$1,000,000 through the conversion of highway funds for the purchase of road machinery.

John B. Wright, commissioner of public works of Amsterdam, opened the way for the story of the "pie book." He said he had refused to approve the work of Contractors Peter V. Veld of Montgomery county and of John B. Goncalves of Troy and as a result had been transferred to a position 300 miles from his home. He appealed to C. Gordon Real, then superintendent of highways, but was informed that the transfer had been brought about by politicians and contractors.

**DYNAMITE CASES UP
TO SUPREME COURT**

**Petition Filed for Review of
Evidence; Allege Errors
in Court Decision**

WASHINGTON, Jan. 27.—Formal petition was filed in the supreme court today for a review of the conviction of Frank M. Ryan and 22 other members of the International Association of Bridge and Structural Iron Workers, on charges of conspiracy growing out of the dynamiting of the Los Angeles Times building and other structures.

Counsel for the convicted men claim the federal district court for Indiana committed numerous errors in the trial and that the seventh circuit court of appeals failed to correct them.

Contending that the court erred in permitting a conviction on the "un-corroborated" evidence of an accomplice, Orlie E. McMagill, who pleaded guilty to the conspiracy charges, the attorneys today urged that since laws of the various states were at variance on this point, the supreme court should settle the question by reviewing the labor men's case. They argued also that the constitutional provision against placing persons in jeopardy twice for the same offense had been violated by the government, indicting the men both on a charge of conspiracy and on a charge of transporting dynamite on interstate trains, and that, moreover, the statute of limitations barred the prosecutions.

**LAST QUARTER 1913
BAD FOR STEEL CO.**

**Year as a Whole, Though, One
of Best Growth Has
Ever Had**

NEW YORK, Jan. 27.—A deficit of slightly more than \$100,000, after payment of fixed charges and dividends, was disclosed today in the statement of the United States Steel corporation for the last quarter of 1913. That the corporation more than earned its charges in the course of the year was shown in the surplus reported for the three previous quarters, amounting to \$2,333,543.

Earnings for the quarter aggregated \$3,308,585, with total earnings of \$2,983,349 and net income of \$17,268,625. These returns, while somewhat under-forecasted compared with \$3,033,581 earnings, \$28,450,000 total earnings and \$29,622,185 net income in the preceding quarter. In the final quarter of 1912, earnings amounted to \$2,726,312, total earnings to \$28,185,557, and net income to \$25,764,345.

Earnings for the quarter aggregated \$3,137,133,363. In 1912 earnings were \$117,936,402. In 1911, \$112,342,450; and in 1910, \$141,054,754.

Officials of the company say that business has increased in marked degree since the beginning of the year, and January's operations are expected to show decided improvement over the last two months of 1913.

After meeting all charges, thereby reducing the net balance to \$85,389,216, the directors appropriated from the surplus the sum of \$10,000,000 for expenditures made and to be made, leaving a balance to carry forward of \$75,389,216, as against \$3,610,129 at the expiration of 1912.

The appropriation order today is the first of its kind since the final quarter of 1910, when \$4,000,000 was set aside for additional property, new plants, etc., and "advanced mining royalties" in connection with the Hill ore lands, the lease of which has since been canceled.

Regular quarterly dividends of 14 per cent on the preferred and 14 per cent on the common shares were declared today. J. P. Morgan presided at the meeting in the absence of chairman Albert H. Gary.

MOTHERS ARE CRUEL TO BABY OR CALOMEL INTO A NICK CHILD

"California Syrup of Pigs" is the name tender stony, soft liver, be veins

Look back at your childhood days. Remember the "physics" that mother levitated on—castor oil, calomel, castor oil, etc. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't figure what they do. The children's revolt is well founded. Their tender little "innocents" are injured by them.

If your child's stomach, liver and bowels need cleansing give "California

Syrup of Pigs" Adv.

(Continued From Page One)

years the action of the provision exempting American ships from the payment of tolls. Should this be adopted, diplomatic negotiations could continue in the meantime.

The third proposal is that congress repeal the toll provision, recognizing that it is in violation of the Hay-Pauncefote treaty. Some Democratic senators, who voted for free tolls, now

are ready to vote for the repeal.

Admiral's Views.

Rep. Senator Adams said today that his colleagues undoubtedly would report the toll suspension bill to the house favorably, but that this action would be held up pending word from President Wilson. Mr. Adams expressed confidence that the house would pass the resolution.

Democrats of the interoceanic canal committee were divided and voted for free tolls to American coastwise ships called briefly for the new situation.

Senator Capen, of West Virginia, who championed the exemption provision, said he had come to the conclusion that the canal act did not violate the treaty. "I have great respect for the opinion of the president," Senator Capen said, "but I think I would have to hear stronger arguments than have yet been advanced before I could change my mind on the question."

Disagreements on Subject.

Senator M. Clegg of Montana, also a member of the naval committee, said he had favored free tolls, but that he would be willing to listen to further arguments. Senator Page of Vermont, a Republican member of the committee, said he always had been opposed to the taxation of American ships from the canal tolls but expressed the belief that the majority of the canal commission would take a firm stand and uphold the law as it stands.

Diplomatic action over the tolls on the Panama Canal, which has been in progress since the Great Britain lodged formal protest July 1913, virtually was suspended after Ambassador Bruce delivered a note last February, just before the expiration of the Taft administration, resuming the British position. Then came the change of administration and before resigning his post as British ambassador to Washington, Mr. Bruce had a parting interview with President Wilson in which the subject of canal tolls was discussed. It was currently reported then that the ambassador had procured from President Wilson some assurance that he would use his best efforts to secure a removal of the discrimination in favor of American vessels.

The troops which will be stationed on the canal zone for the protection of the Panama canal are under the secretary of war; the logical conclusion is, therefore, that the supervision of the operations of the Panama canal under the permanent organization should be under the secretary of war.

The organization is to be in general accordance with the chart accompanying this memorandum, except that all of the various divisions and subdivisions need not be established until in the opinion of the government it is desirable to do so; the organization being expanded gradually as the necessities of the work require.

Appointment Please Canal Zone.

PANAMA, Jan. 27.—News of the signing today by President Wilson of an executive order establishing a permanent government for the canal zone with Colonel Goethals as governor, reached here late today, and brought with it a general feeling of relief.

Colonel Goethals expressed pleasure when advised of the appointment, but declined to make comment in the absence of official notification.

It is believed in official circles here that the plan submitted by Colonel Goethals through the secretary of war has been followed. This would give the governor control of all features of the administration, the more important officials being either navy or army officers experienced in the work of the respective departments of which they will have charge.

Colonel Goethals is understood to have selected Captain Hugh Rodman of the navy as superintendent in charge of the operation and navigation of the canal and Naval Constructor Daniel C. Nutting, Jr., to be superintendent of all the construction shops at Balboa and elsewhere, succeeding Lieutenant Colonel Tracy C. Dickson.

Colonel Goethals later said that there would be no delay after he had received official notification of his appointment as governor in the reorganization of the canal force. He expressed gratification at the honor conferred upon him by the president.

GOMPERS CELEBRATES HIS 64TH BIRTHDAY

FARM ANIMALS ON JAN. 1 WERE VALUED AT \$5,891,229,000

WASHINGTON, Jan. 27.—Farm animals in the United States on January 1, were valued at \$5,891,229,000, the department of agriculture announced today. This was an increase of \$389,446,000, or 7.1 per cent over the value of animals on farms and ranges January 1, last year.

Horses numbered 26,962,000, an increase of 300,000 over last year, were valued at \$109,92, a decrease of \$145 and had a total value of \$2,281,688,000.

Mules numbered 4,449, an increase of \$8,000; were valued at \$28,85 a head, a decrease of 46 cents, and had a total value of \$551,050,000.

Michigan numbered 20,657,000, an increase of 240,000, were valued at \$3.94 a head, an increase of \$8.92, and had a total value of \$1,118,657,000.

Other cattle numbered 35,886,000, a decrease of 178,000; were valued at \$11.13 a head, an increase of \$4.77, and had a total value of \$1,115,323,000.

Sheep numbered 48,719,000, a decrease of 1,763,000; were valued at \$4.84, an increase of 10 cents, and had a total value of \$220,808,000.

Swine numbered 58,938,000, a decrease of 2,245,000; were valued at \$10.40, an increase of 55 cents, and had a total value of \$612,951,000.

Could Not Write

Versailles, Ky.—Mrs. Eliza Green, of this place, says, "I could not write all the different pains I had, when I first tried Cardui. I could scarcely walk.

Now I am able to run the sewing machine and do my work; and my neighbors tell me the medicine must be good, for I look so much better." Cardui is a specific, pain-relieving, tonic remedy, for women. In the past 50 years, it has been found to relieve women's unnecessary pains and female misery, for which over a million suffering women have successfully used it. Try Cardui for your troubles. It will help you. At the nearest drug store. Adv.

(Boulder Secrets)

The annoying warts of hair or fuzz can now be banished in a quick, painless manner and at a trifling expense by the following simple treatment: Mix into a stiff paste enough powdered salolone and water to cover the ugly hairs, apply and after 2 or 3 minutes remove. Wash the skin and the hairs are gone. This will not mar the most sensitive skin, but you must be careful and see that it is genuine salolone you buy.

The Surest Way To Remove Hairs

(Boulder Secrets)

The annoying warts of hair or fuzz can now be banished in a quick, painless manner and at a trifling expense by the following simple treatment: Mix into a stiff paste enough powdered salolone and water to cover the ugly hairs, apply and after 2 or 3 minutes remove. Wash the skin and the hairs are gone. This will not mar the most sensitive skin, but you must be careful and see that it is genuine salolone you buy.

BARGAIN COUNTER BOND SALES

SELLING bonds "over the counter" promises to become the regular and accepted method of disposing of municipal securities. Instead of selling an entire issue to a broker and paying a commission of 15 per cent or thereabouts, several cities have adopted the plan of selling their bonds directly to the "ultimate consumer." This has been done in Philadelphia, in Baltimore, in Detroit, and recently in Colorado Springs, and in each case there has been a considerable saving. Sometimes it is possible not only to save the commission but to obtain a higher market price for the bond than a broker could get.

Recently John Wanamaker suggested that the bargain counter method of selling bonds be adopted by the railroads. There would be a loss in time but a saving of commissions which in the aggregate would amount to hundreds of thousands of dollars a year. The railroads need money for development not millions but billions within the next five years, is the estimate of so capable an authority as James J. Hill. They complain that the attacks constantly being made on their financial arrangements, of which the recent New Haven case is the most conspicuous example have impaired their credit and increased the difficulty of obtaining money.

This is undoubtedly true, for the investor in railroad securities is, as a rule, a man of moderate means who scrutinizes his investments carefully, and he does not care to take a chance with the bonds of a railway which is generally believed to be mismanaged. The New Haven road came to grief partly because its stock was too heavily watered. But a brilliant success awaits the railroad that is able to place on the market bonds bearing the guaranty of the Interstate Commerce Commission that every dollar of the proceeds will go into the actual development of the property.

THE PRESIDENTIAL TERM

EVERY four years March 4 dawns in Washington cold and stormy and the usual story goes over the wires telling of another failure of the inauguration ceremonies because of inclement weather. And then the Washington papers renew their agitation for a change in the inaugural date to a season when sunny skies and balmy breezes are more likely to prevail. Congress talks of the project aimlessly for a while, then drops it and nothing more is heard of the subject for four years.

Now Senator Shattuck has proposed a plan for changing the inaugural date and the date of convening Congress, but he does not seem to have considered the vagaries of the Washington climate. He would have Congress convene on the first Monday in January following the election instead of on March 4, and he would change the inaugural date from March 4 to the third Monday in January.

It is an absurdity that under the law thirteen months must elapse between the election of a congressman and the opening of the session in which he takes his seat unless, as happened last year, a special session is convened. Neither is there a good reason for permitting four months to pass between the election of a President and his inauguration. This, however, is a matter of less importance, and the reason usually assigned for the agitation for a change of the inaugural date is the virtual certainty that March 4 in Washington will be a cold and stormy day. Few spots in the country are afflicted with a worse climate than the national capital, and to insure anything like fair weather it would be necessary to fix a day in the late spring or early summer, which is obviously impossible because of the greater length of time that would elapse between the election and the inauguration.

A SOCIALIST VIEW OF FORD

FOR pure unadulterated meanness, this opinion of Henry Ford's benefaction, from a New York Socialist-Labor paper, The Daily People, takes the prize.

As Carnegie, after having risen, with the help

of the high-tariff, jaded, to a swindling height

in his career, was in hell up to his neck in his sins, and was persecuted—indeed, it had to be the ladder of success, as he himself admits, to lay railroad tracks in the desert, to a commanding power over 100,000 men, who, with the ladder, turned their back and caused the stepladder to be removed by Ford, having risen by the lungs of 100,000 men, to wages, and inhuman intensification of work to the top of the ladder, whence he can outbid his competitors, he is, in fact, now up the ladder turns his back as a maneuver to increase his own enormous power at the expense, of course, of his competitors and the profit-sharing benevolent propensity notwithstanding, at the expense of the working class as well. As to Ford's competitive pace of shorter hours and higher wages, capped with the profit-sharing bonus, set by him, will work disastrously upon them in various degrees: not a few will have to shut up shop; as to the working class, even if those employed by him "keep their hold of the cable" and find their conditions improved, the larger number of those thrown out of work through the ruin of Ford's competitors will be out in the cold. That much for the Ford pronouncement.

Ford didn't rise "by the rungs of long hours, low wages and inhuman intensification of work." He has always paid high wages and his factory conditions have been considered excellent.

And why belabor Ford because in setting the "pace of shorter hours and higher wages, capped with the profit-sharing bonus," he may out-distance his competitors? Don't the Socialists want shorter hours and higher wages? Do they think that a profit-sharing bonus is a bad thing for the workingmen? If they will interview a few level-headed workingmen they will find a marked unanimity of sentiment in favor of these things.

Fortunately for Ford he didn't make his plans for the benefit of the Socialists, but for that of his 23,000 employees, and he succeeded admirably. To satisfy the Socialists he would have had to give them his entire business: factory, good will and a cash bonus thrown in.

George B. Tripp, formerly of Colorado Springs, has been elected president of the Chamber of Commerce at Harrisburg, Pa., and the Telegraph of that city thus salutes him:

Good evening, Mr. Tripp! As the unanimous choice of the new Chamber of Commerce for its first president you must feel that hustle and energy are appreciated in this community.

Quite so. Mr. Tripp is a vigorous hustler and capable of generating enough horsepower to keep even an up-to-date Chamber of Commerce moving. The Harrisburg boosters evidently know how to use a good man when they find one.

This is undoubtedly true, for the investor in railroad securities is, as a rule, a man of moderate means who scrutinizes his investments carefully, and he does not care to take a chance with the bonds of a railway which is generally believed to be mismanaged. The New Haven road came to grief partly because its stock was too heavily watered. But a brilliant success awaits the railroad that is able to place on the market bonds bearing the guaranty of the Interstate Commerce Commission that every dollar of the proceeds will go into the actual development of the property.

OPEN PARLIAMENT

To the Editor of The Gazette.

Mr. "Bank Stock Holder" grows more cynical with every letter he writes, possibly because he is unable to bring out any real arguments against the single tax. In my last letter to the Open Parliament I made the statement that "the man who has made the mistake of speculating in land will share in the general gain, because increased prosperity will cause a demand for land which will enable him to sell lots for a reasonable price, which he has heretofore been unable to sell at any price." Does this say anything about reducing taxes on land? But my friend, Mr. "Bank Stock Holder" has misconstrued this statement by saying that "even they (land owners) are told that with a larger sum than ever to raise and fewer to contribute, their taxes will mysteriously decline."

If the single tax were merely a proposition to exempt the improvements of the rich, there would be no single taxers. It is our definite purpose to impose the taxation upon the value of land to induce the owners of idle land to make a good use of it, or let someone else do so. But it so happens that by confirming taxation to land values, we are enabled to remove the taxes from buildings which is but a good business proposition.

That my own statement about single tax and prosperity is true is proven by the facts forthcoming from the cities which have already tried it. Houston, Tex., recently tried a measure of the single tax which though but a partial application of the principle, was even more radical than the proposition which is to be submitted in Colorado Springs. In the words of its tax commissioner Mr. Pastoriza, since we have adopted this plan, the city has been on what is sometimes called a boom. It has had the effect to increase the number of land sales without depreciating the price of land.

Now Mr. "Bank Stock Holder" it strikes me that I would pay you in the long run to come out and show your true colors, and admit that you are opposed to the single tax. Ask us some fair and clear-cut questions upon which the issue can be squarely met. By posing as a friend of the single tax and thereby seeking to confuse the minds of the voters they are enabled to see the real aim of your article and will come over to our side if for no other reason if I were you I would at least refrain from displaying my ignorance of the question in public, while appealing to the fears and jealousies of my neighbors in private.

ERNEST A. SINTON

Colorado Springs Jan 2 —

To the Editor of The Gazette.

On January 17 Mr. A. E. Nettleton presented the following clipping in the Open Parliament which raised a question that trips many of those who have not studied the single tax proposition:

"We are told that land values arising from increased population is unearned increment, and should be forfeited to the people. It sounds like good logic. But what about values of manufacturing plants and lines of transportation that have come because of increased population?" If there were no people in America, the railroads and factories would be worth nothing. If the logic of the single tax is good then the value of all industry arises from the presence of the people, and as a result the industries themselves belong by right to the whole people now."

And on the strength of the above, Mr. Nettleton proposes to "take (steal) that which is ours."

It is true that were the people to move out of Colorado Springs, the value of the houses and buildings here would be literally nil. But were its population to increase to 100,000 the value of these buildings would never be more than it would cost to replace them. In fact such increase of population would surround many houses and buildings with an environment of business which were not built to accommodate and this would have to be removed thus materially lessening their value. In the meantime they would have suffered the de rebus talibus accompanying the usual deterioration.

On the other hand, note the effects which such

an increase in population would have on the value of the houses and buildings here. The value of the houses and buildings here would but detract from the selling price of a given (as far as the help of the ladder of success, as he himself admits, to lay railroad tracks in the desert, to a commanding power over 100,000 men, who, with the ladder, turned their back and caused the stepladder to be removed by Ford, having risen by the lungs of 100,000 men, to wages, and inhuman intensification of work to the top of the ladder, whence he can outbid his competitors, he is, in fact, now up the ladder turns his back as a maneuver to increase his own enormous power at the expense, of course, of his competitors and the profit-sharing benevolent propensity notwithstanding, at the expense of the working class as well. As to Ford's competitive pace of shorter hours and higher wages, capped with the profit-sharing bonus, set by him, will work disastrously upon them in various degrees: not a few will have to shut up shop; as to the working class, even if those employed by him "keep their hold of the cable" and find their conditions improved, the larger number of those thrown out of work through the ruin of Ford's competitors will be out in the cold. That much for the Ford pronouncement.

SCHOOL LADS ANNUAL SECTION OF BANQUET

Meeting to Be Held Next Saturday,
Will Bring 100 Delegates and
Many Visitors.

The annual meeting of the Colorado
School Lads' Association will be held
in Colorado Springs in October.
The local delegation which was in at-
tendance at the annual meeting at
Cripple Creek, Monday and Tuesday,
is sending the meeting to this city
over Pueblo and Fort Collins.
The delegation will bring about 100
delegates to this city from out of town.
J. P. McKinley of Denver,
Colo., was elected president of the
association for the year.

The state county delegations who
gathered last night report an interest-
ing and beneficial meeting. The
meeting of the association was held
on Sunday, and visitors to the
association with the state
and the national organization to
study and improve the quality of
the training of higher class stock.

A meeting was held by the associa-
tion to 10 children for work in rec-
ognizing their dairy herds for the
last year. Many instructive exhibits
of farm and dairy implements were
on display during the meeting.

Trial on in District Court

Displaying no perceptible signs of
emotion and listening to the process-
ions apparently unconcernedly as if
he had no part in them, Daniel Sulli-
van, yesterday at through the first
day of his trial in which he is charged
with the murder of Henry L. Thorn-
burg. When court adjourned yesterday
afternoon, the jury had been im-
paneled and sworn. The trial of
Sullivan will be commenced this morning.
The case is being tried before
District Judge W. S. Morris.

The fight in which Thornburg was
killed took place December 7, in a
Hutson street lodging house. Thorn-
burg was stabbed in several places
with a pocket knife and lived only a
few days. The fight centered round
a man named Oldham, whom Sullivan
is said to have attempted to rob.
It is charged that Thornburg tried to
knock him down and thereby evoked Sulli-
van's wrath.

OPEN HOUSE AT Y. M. C. A. DRAWS AUDIENCE OF 300

The members of the Young Men's
Club, a association held a musical
"gala" last night. What for? The
of the young men and members of the
Y. W. C. A. there was a great at-
mosphere of fun and enjoyment.
The program started at 8 o'clock and was
as follows:

Orchestra—T. M. C. A. Orchestra
Dances—Dr. Leibach
Vocal—Mrs. W. N. Hartshorn
Reading—The Drama Club
Sole—What the Girls Know
Sole—R. R. Hartman
Sole—E. W. Johnson

Following the musical program
the girls' raised to the stage the
various exhibition work was put on
by the Y. W. C. A. Arthur
Kendall gave a big painting ex-
hibition which was followed by a
music hall game between the Colorado
City high school and the Y. M. C. A.
Mayors. The latter won by the score
of 16 to 16.

Morgan all of New York, and J. A.
Hayes, R. L. Holland, J. W. Ryter,
R. W. Chisholm and Charles T. Peirce
all of Colorado Springs. The di-
rectors met yesterday afternoon and
selected officers as follows: George
Bullock, president, R. W. Chisholm
and S. J. Dill, vice-president; J. W.
Ryter, secretary-treasurer. No other
business came before either meeting.

FEDERATED BROTHERHOODS MEETS TUESDAY NIGHT

The federated brotherhood of Colo-
rado Springs will meet Tuesday even-
ing at 6:30 o'clock at the Presbyterian
church at which "Civic Questions"
will be the topic for discussion. The
list of speakers has not been arranged.
The attendance is not limited to mem-
bers of the brotherhood, all men
are invited. Those who desire to make
reservations for the supper, which will
precede the speeches, are asked to
notify Charles Chapman, city clerk by
telephone.

SPORTING NEWS

Members of Players' Frat May Now Sign With Minor Leagues

NEW YORK, Jan. 27.—The Baseball Players fraternity today withdrew its order instructing members not to sign minor league contracts, a satisfactory agreement having been reached with the leading minor leagues of the National Association. President David Fuks said:

"For the last two days the Baseball Players fraternity has been in communication with Mr. Barrow, president of the International League, also acting for the Pacific Coast League; M. Chivington of the American Association and Judge Kavanaugh, president of the Southern Association, also empowered to act for the Western League. We are assured by these gentlemen that their understanding of the disposition made of the side agreement clause at Cincinnati is the same as that entertained by Mr. Herrmann and myself."

"We have been assured that all contracts signed by players in these leagues will be subject to the provision already inserted by the national commission in the major league contracts so far as the clause suspending the player in concerned, also that contracts signed in the future will have the clause stricken out, irrespective of what action the national association takes."

"Although the association still persists in its arbitrary stand, rather than further embarrass the gentlemen named, who have been absolutely fair in all their dealings with us, we are notifying our members that the objection to signing contracts is withdrawn."

Cobb to Train With Team for First Time

DETROIT, Jan. 27.—The Detroit American League baseball team today received a letter from Ty Cobb, which stated he would join the regulars at Gladwin, Mich., the spring training camp, some time during March. Cobb has seldom trained with his team "as in the springtime, and his letter is believed to be in line with his recent statement that the Detroit club would have the full benefit of his services in 1914.

The signed contract of William Purcell, infielder, was received today.

BROWNS GET CONTRACTS FROM STEELE AND PERRITT

ST. LOUIS, Jan. 27.—Bill Steele and Joe Perritt, pitchers, today signed to play with the St. Louis Nationals during the 1914 season.

ST. LOUIS FEDERALS MAY BE UNABLE TO OPEN PARK

Falkenberg, Kahler und Blundung Jump From Naps to Feds

Building Commissioner Refuses Permit for Construction of Temporary Wooden Stands

CHICAGO, Jan. 27.—The desertion of three Cleveland pitchers to the Federal League was admitted here this afternoon by President C. W. Somers of the Cleveland club. The three are Fred Falkenberg, who is said to have signed with Indianapolis; Fred Blundung, who joins the Toronto club, and Fred Kahler, signed with Pittsburgh.

"I guess they've jumped," said Mr. Somers, who paid a visit to President Johnson of the American League.

Federal League officials, following their recent decision, declined to comment on the report of the jump of the Cleveland pitchers, but baseball followers generally considered the new organization's acquisition a triumph. Increased over their last year's salaries and three-year contracts are said to have been given the three.

John Evers, manager of the Chicago National League club, on his way home from Tampa with the signed contracts of Tom Leach, George Pierce and Arthur Phelan, according to word received at the club headquarters. Pierce and Phelan have signed contracts for three years, and Leach for one.

Hendrix Gets to K. C.

KANSAS CITY, Jan. 27.—Claude Hendrix, who pitched for the Pittsburgh National League baseball club last season, will wear a Kansas City Federal League uniform next year, according to an announcement by the local Federal League club tonight.

Hendrix recently signed a contract with Joe Tinker, manager of the Chicago Federal League club, and according to tonight's announcement, Tinker has turned him over to Kansas City.

George Perring, an infielder with the Columbus American Association team last year, today signed to play with the Kansas City Federals.

Hartzel Sticks.

NEW YORK, Jan. 27.—A report from Chicago that Roy Hartzel, utility man of the American League club, had opened negotiations with the Federal League, was denied by President Farrell tonight when he made public a letter received from Hartzel, dated at Denver, Colo., January 24, in which the player said:

"Your terms accepted and contract received. Will sign and report at Hot Springs, Ark., on February 15. Thank you for raise in salary. I will sure play my best to earn it."

ST. LOUIS, Jan. 27.—Phil D. C. Ball, one of the backers of the St. Louis Federal League club, left tonight for Tulsa, Okla., to look over spring training camp sites. He also plans on visiting proposed camps in Texas.

LOWELL, Mass., Jan. 27.—Mordac Brown, manager of the St. Louis

Louisville team, came here today to secure the services of George Taylor, pitcher of the Boston Nationals. Taylor announced he had taken the Federal offer under consideration and had promised Brown to answer within a few days.

RALPH BROWN, Jan. 27.—Manager of the Baltimore Federal League, on his return today from a western trip, said he had signed three new players while away. He refused to give their names, but said that two of them were major leaguers and the third played with a minor league team last year, but belonged to a big league club. Southern Pines, N. C., has been selected as the spring training grounds for the local Federals.

Y. METEORS COMPLETELY OUTCLASS C. C. QUINNIE

In Slow, Uninteresting Game, Colorado City High Losses by Score of 10 to 55

The Y. M. C. A. Meteors completely outclassed the Colorado City High school quintet in a game at the Y. M. C. A. "open house" last night, winning by a score of 55-10. Although there is no city league this year, the Meteors are planning to meet all the city teams. They have already met and defeated several teams of the Boys Club league.

The game last night was one-sided from the start, the Y. M. C. A. team, even then playing second-string men during the first half. Woody of the Meteors starred for his team, having 24 of the 55 points to his credit. The Colorado City team was slow and anything but accurate in basket shooting.

In the Meteors' coach Ernie Erne had one of the best Y. M. C. A. boys' teams in the state. The players are fast work together and know how to shoot baskets. The next game on their schedule will be with the Fountain High school next Tuesday night.

Following is the lineup:

Meteors Position Colo City Morris
Barnes Guard Forward Brown
Shipley Center Forward Reynolds
Woods Center Guard Chipman
Whittemore Guard Griffis
Thompson Guard Griffis
George St. John Referee
